

FINDINGS AND IMPLICATIONS REPORT

Jobanpreet kaur Banipal

02/August/2023

OUTLINE

- Executive Summary
- Introduction
- Methodology
- Results
 - Visualization – Charts
 - Dashboard
- Discussion
 - Findings & Implications
- Conclusion
- Appendix

EXECUTIVE SUMMARY

- Current Technology Usage
 - Top 10 Languages
 - Top 10 Databases
 - Platform
 - Top 10 Web Frames
- Future Technology trends
 - Top 10 Languages
 - Top 10 Databases
 - Platform
 - Top 10 Web Frames
- Demographics
 - Respondent classified by gender
 - Respondent count by countries
 - Respondent count for age
 - Respondent count by gender and by education level

INTRODUCTION

- The top 10 Programming Languages in demand and in future.
- The top 10 Databases in demand and in future.
- Mostly used Platforms
- Correlation between data using dashboard

METHODOLOGY

- Collecting Data using API
- Collecting Data using Web scrapping method

RESULTS

Next upcoming slides show results obtained by using Dashboard visualization.

PROGRAMMING LANGUAGE TRENDS

Current Year

Next Year

PROGRAMMING LANGUAGE TRENDS - FINDINGS & IMPLICATIONS

Findings

- Powershell CLI is mostly used language now.
- C# will be in trend in next years.
- Erlang is the least language used now these day.

Implications

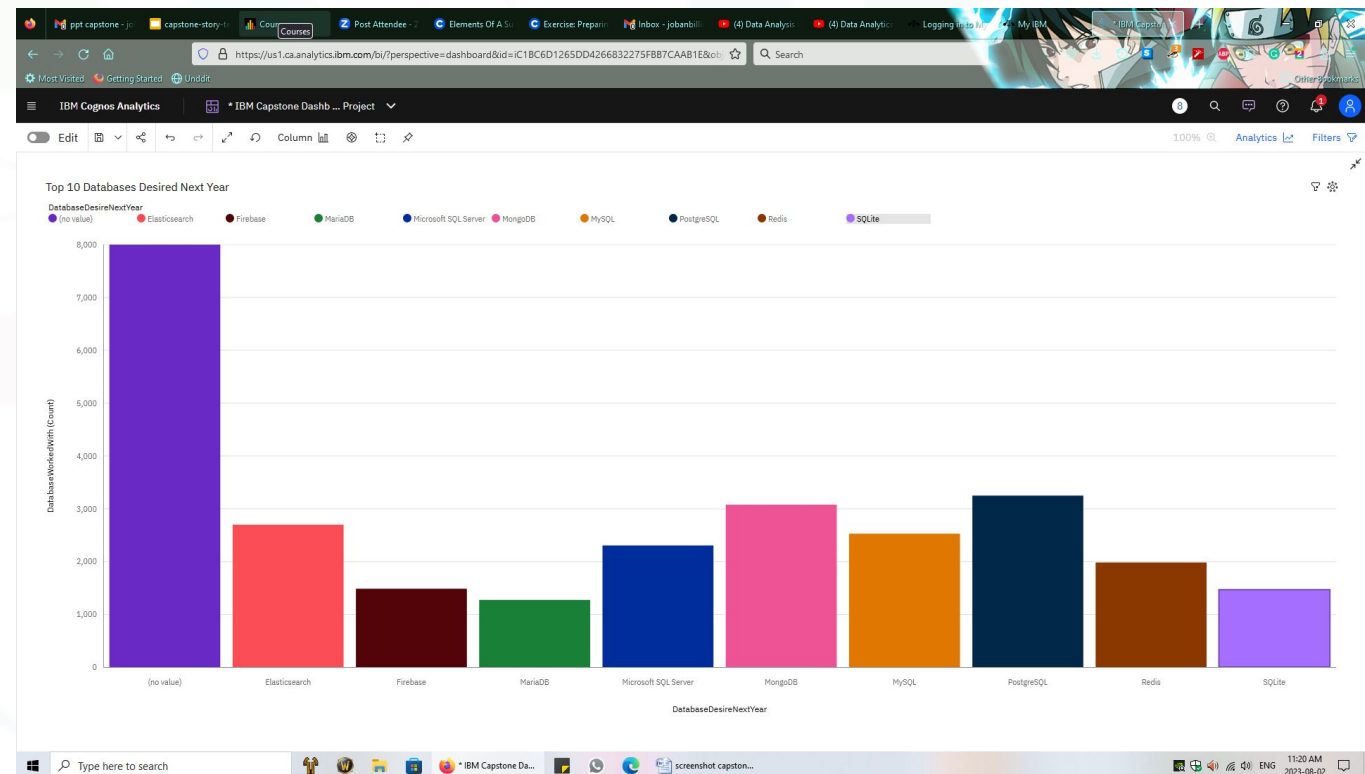

- C# will be the new trend so need to focus on that language from now
- Demand Powershell CLI will decrease as compared to now.

DATABASE TRENDS

Current Year

Next Year

DATABASE TRENDS - FINDINGS & IMPLICATIONS

Findings

- Mostly in demand database is MySql and demand of this is going to decrease in coming years.

Implications

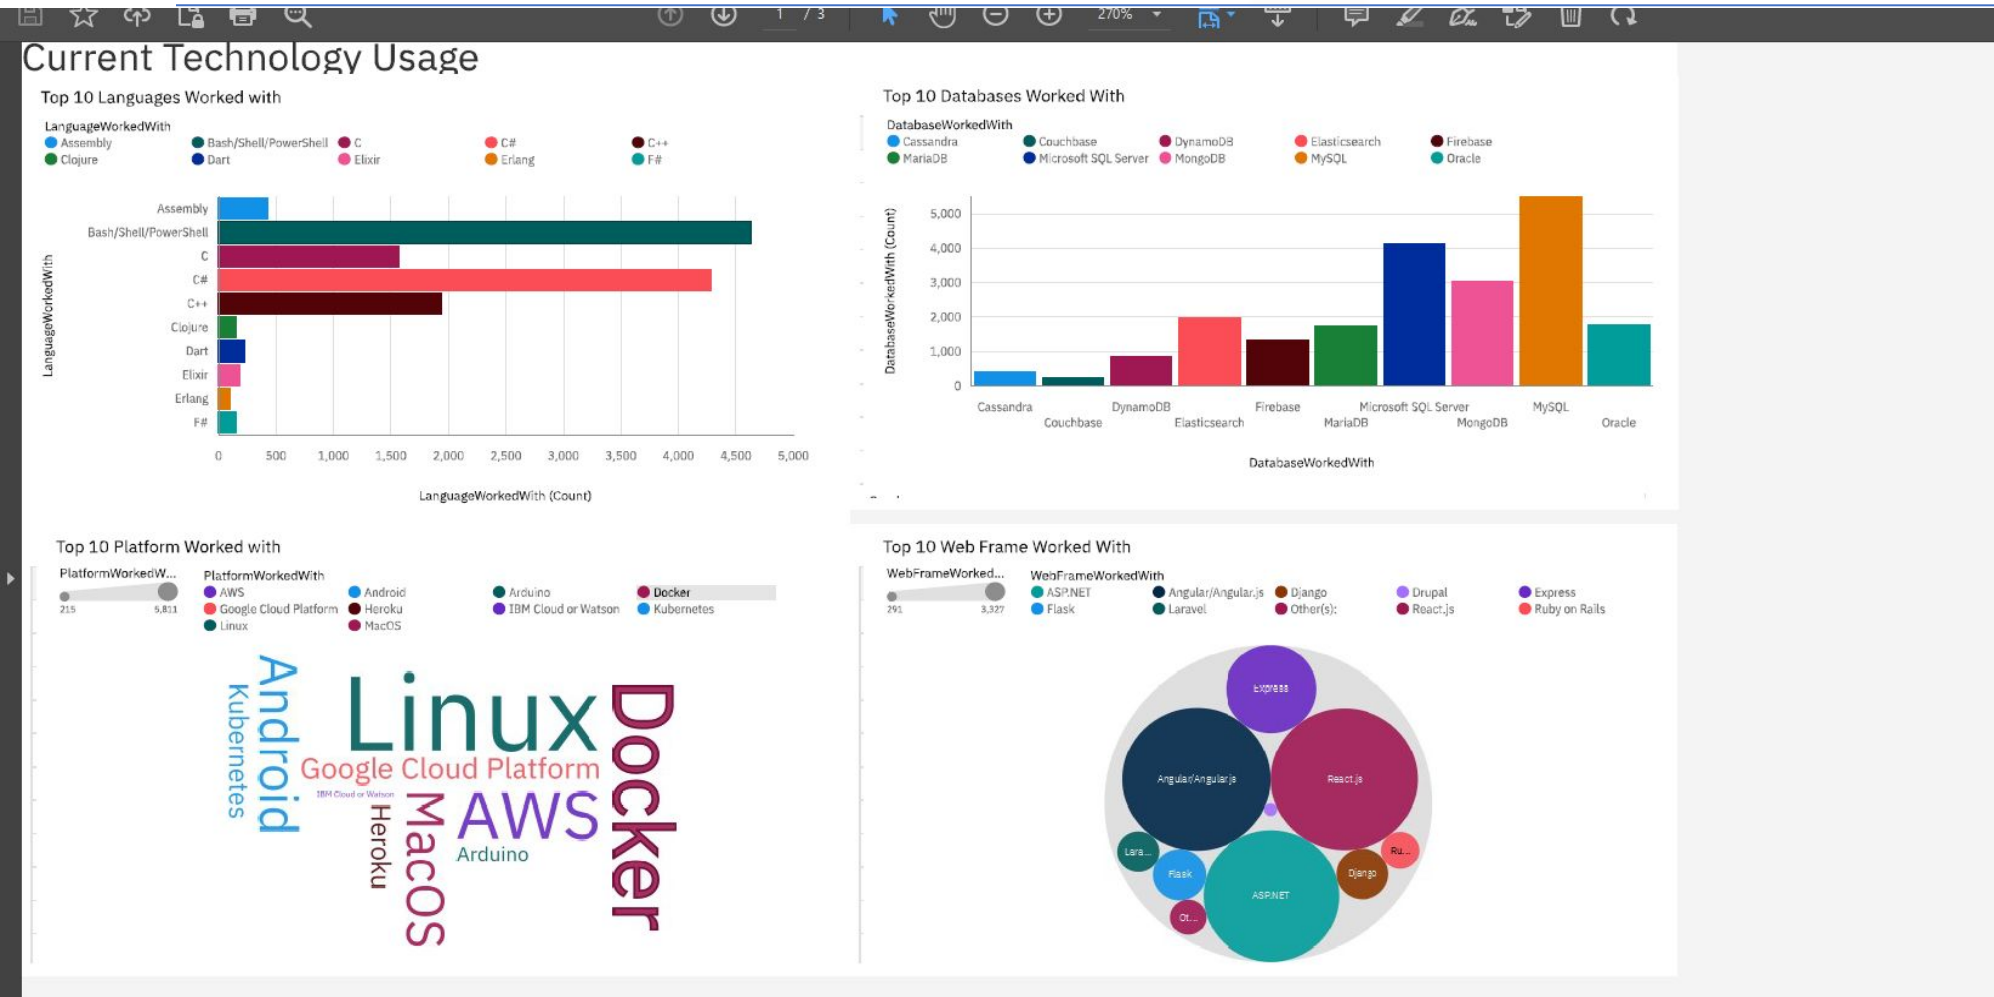

- Demand of new different databases going to be in trend.
- People are curious to use databases that's why new databases emerging every year.

DASHBOARD

https://us1.ca.analytics.ibm.com/bi/?perspective=dashboard&pathRef=.my_folders%2FIBM%2BCapstone%2BDashboard%2BProject&action=view&mode=dashboard&subView=model00000189b236d8a9_000000000

Gender by Gender

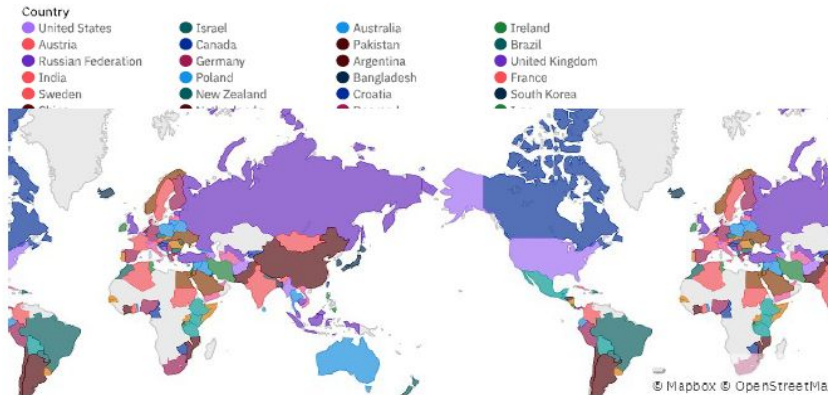

Gender
Woman;Man Woman Man

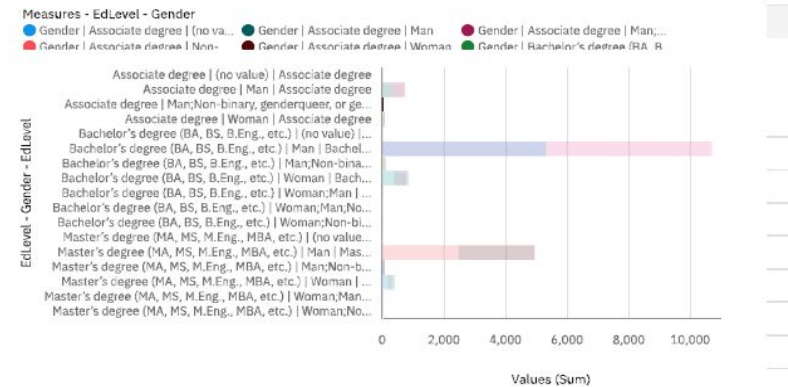

Age by Respondent

Country for Country regions

Respondent count by Education Level and Gender

DISCUSSION

It is clearly showing that upcoming future will be more technological based instead of labour demand. The demand of programming language and database demand is never ending demand in future. As people need more softwares and AI to complete their task.

OVERALL FINDINGS & IMPLICATIONS

Findings

- The upcoming year will be more demand for programming languages and databases.

Implications

- Demand of programming languages and databases that are easy to learn and implement.

CONCLUSION

- Programming Languages are in demand
- Different databases are in demand.
- Platforms are in demand.

APPENDIX
